

# The sliding door collection

# Individually designed sliding door solutions

Providing truly individual design and manufacture, supported by an installation service across a complete range of sliding wardrobe doors, Stanley can transform even the most difficult of spaces into a stylish bespoke bedroom.

Simply select from our exciting new range of modern and traditional styles in natural wood effect and mirrored finishes, and let a Stanley approved Designer Fitter do the rest.

Your wardrobes or storage space will be planned and designed by an independent network of Designer Fitters, and then professionally installed in your home.

Once your individual design is completed, the Stanley range can be adapted to fit most room shapes and sizes. With the usual attention to detail, superb finish and wide choice of shelving and accessories, you really can create the perfect storage solution to reflect your taste, complement your décor and suit your lifestyle.

With a ten year guarantee, you will have a wardrobe you can enjoy for years to come.

## The right track

Using the very latest sliding track technology, Stanley doors glide open and closed effortlessly – time after time, every time. Quality manufacture ensures they are built to last while the subtle design means they are unobtrusive and easy to use. Top tracks co-ordinate with the full range of finishes, complemented by four universal bottom tracks available in brass effect, silver effect, gold effect and plain white.

## DOOR FINISH OPTIONS

Antique Pine Effect

Cherry Effect

Pearwood Effect

White Ash Effect

Mahogany Effect

Beech Effect

Flowered Lined  
Oak Effect

Keeping things minimal, the clean lines, elegant simplicity and sheer white lacquered glass finish of these doors displays an understated confidence in both your life and style. The silver effect tracking and mirror door complement and complete the contemporary fuss-free look creating a wardrobe with a certain attitude.

▲ Pine finish wardrobe doors combine the warmth of light wood with an interesting grain pattern. Pine remains a favourite finish in more traditional bedrooms and the wood effect frame and useful full length mirror complete a very homely look.

The Stanley Traditional range has been produced to reflect the tastes, styles, furniture and décor of those looking to the past for inspiration. Still offering exciting designs and interesting combinations, the Traditional range is less likely to date, creating wardrobes with a longer life and more relaxed style.

▶ Using full length mirrors to reflect traditional furniture creates a sense of space and pleasantly disguises the use of modern methods in wardrobe and storage design. Brass effect tracking adds a touch of style and echoes the fixtures and fittings often found in traditional décor.

▲ A fresh twist on the traditional wooden wardrobe idea, our beech effect framed door provides a brighter focus to the bedroom. Creating an open and natural fresh air feeling, beech complements the light of a full length mirror to bring the outdoors inside in a wonderful combination.

TRADITIONAL

traditiona

Turning a bedroom alcove into a sliding door wardrobe can dramatically improve the use of space. Providing storage for many things as well as clothes, rooms become tidier, more practical and better organised. Able to fit into areas large or small, a sliding door conversion might just remove the stress from your cleaning routine.

Based on designs that stand the test of time, the Stanley Classical range provides a unique opportunity to create a familiar wardrobe with a modern twist. Perfectly suited to loft living, modern or more traditional homes, our Classical wardrobe doors will add an extra touch of style to any bedroom.

Perhaps the archetypal classic British wood, pear goes back as far as furniture itself. Bringing the finish right up to date in our pearwood effect sliding doors, gives it a fresh new look which is clearly at home in any modern bedroom.

Offering a complete range of accessories, storage shelves and single and double hanging racks, our wardrobes can be specially customised to meet your exact needs. Not only will a Stanley sliding door wardrobe create more space, it will create just the right type of space for you.

updating the...

classics

Producing flexible storage space for today's multi-function households, the Stanley Home Office range provides a dual purpose wardrobe option for active individuals. Using high-tech finishes and reflective surfaces to produce a solution to your storage problems, the Home Office range brings the minimalist technology of modern living right into your room.
